

TEDxUNYP 2020 Press Release

On Saturday March 28, the University of New York in Prague will bring together some of the brightest minds to share creative discussion at the fifth TEDxUNYP event. TEDxUNYP is an independently organized, officially licensed TEDx event, and the largest English-language TEDx event in the Czech Republic. This year the event will be moving to a new theater seating nearly and boasts 13 brilliant speakers including the well-known singer, Mikolas Josef.

TEDxUNYP brings together a diverse group of experts speakers in fields that include communication, psychology, digital marketing, entertainment, HR, technology, sports, philanthropy, music, and dance. This year's talks cover an amazing range of topics, from the development of innovation "kindergartens" in big organizations, through the issue of racism in artificial intelligence, to perspectives on the search for authenticity in pop music and digital marketing, and the future of Esports. While the talks are the highlight of TEDxUNYP 2020, attendees will also have the opportunity to network and participate in activities such as TED Circles and the VR and Esports zones.

"For this year's TEDxUNYP, we have brought together our best line-up yet. This unique group of speakers – including academics and CEOs, artists and athletes – will stimulate wonder and inspiration, foster learning and curiosity, and provoke meaningful discussions. What's more, the UNYP community will be looking forward to sharing ideas and creativity with other communities in Prague and from around the world," said Mark Anderson, Marketing Director for the University of New York in Prague and TEDxUNYP, Organizer and Licensee.

"We believe it is important to connect our students with students from other universities, broaden their sense of community and give them the opportunity to hear new perspectives and innovative ideas from leaders from within Czech Republic as well as from abroad. This type of critical sharing and idea building is what the University of New York in Prague is about, so having our own University TEDx event is the perfect fit. That is seen in the team that organizes it each year made up of our alumni, students, staff and even people from the growing TEDxUNYP Community," added Sotiris Foutsis, General Manager for the University of New York in Prague.

We are proud to present the TEDxUNYP 2020 line-up of local and international speakers:

About TEDx, x = independently organized event

In the spirit of ideas worth spreading, TEDx is a program of local, self-organized events that bring people together to share a TED-like experience. At a TEDx event, TED Talks videos and live speakers combine to spark deep discussion and connection. These local, self-organized events are branded TEDx, where x = independently organized TED event. The TED Conference provides general guidance for the TEDx program, but individual TEDx events are self-organized. (Subject to certain rules and regulations.)

About TED

TED is a nonprofit organization devoted to Ideas Worth Spreading, often in the form of short talks delivered by leading thinkers and doers. Many of these talks are given at TED conferences, including our annual gathering in Vancouver, as well as TEDWomen, intimate TED Salons and thousands of independently organized TEDx events around the world. Videos of these talks are made available, free, on TED.com and other platforms. Audio versions of the talks from TED2019 are published to TED's podcast TED Talks Daily, available on all podcast platforms.

TED's open and free initiatives for spreading ideas include TED.com, where new TED Talk videos are posted daily; TEDx, which licenses thousands of individuals and groups to host local, self-organized TED-style events around the world; the TED Fellows program, which selects innovators from around the globe to amplify the impact of their remarkable projects and activities; the Audacious Project, which surfaces and funds critical ideas that have the potential to impact millions of lives; TEDSummit, which gathers the most engaged members of the global TED community for brainstorming, discussions, performances, workshops and an eclectic program of mainstage talks; and the educational initiative TED-Ed. TED also has a growing library of original podcasts, including The TED Interview with Chris Anderson, WorkLife with Adam Grant, TED en Español and Sincerely, X.
